

Half and Quarter Hours

The clock face is divided into four equal parts.
Each part is one-fourth.

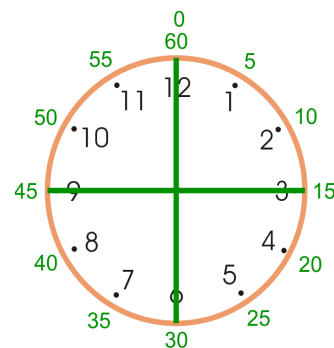

We can see that one-fourth of 60 minutes is 15 minutes.

The word “quarter” means one-fourth.

When we say, “A quarter past 6,” we mean one-fourth of an hour past 6 o’clock, or 15 minutes past 6.

When we say, “A quarter till 6,” we mean one-fourth of an hour till 6 o’clock, or 15 minutes till 6.

When we say, “Half-past 6,” we mean a half-hour past 6 o’clock, or 30 minutes past 6.

1 hour = 60 minutes
1/2 hour = 30 minutes
1/4 hour = 15 minutes

15 past 4, OR a quarter past 4

15 till 8, OR a quarter till 8

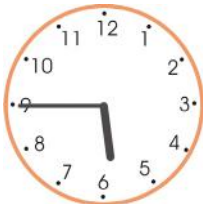

half past 10

1. Write the time using “a quarter past,” “a quarter till,” “half past,” or “o’clock.”
