

Multiplication as an Array

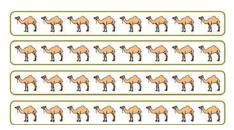

An **array** is an orderly arrangement of things in rows and columns. When things are neatly aligned in an array, we can think of the <u>rows as groups</u>, so an array still pictures multiplication as repeated addition.

3 rows, 6 crosses in each row.

$$6 + 6 + 6$$

$$3 \times 6 = 18$$

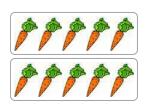

4 rows, 8 camels in each row.

$$8 + 8 + 8 + 8$$

$$4 \times 8 = 32$$

1. Fill in the missing numbers.

a. ____ rows, ____ carrots in each row.

____+__

 \times = carrots

b. rows, rams in each row.

____+ ____+ ____

_____ ×____ = ____ rams

c. rows, bear in each row.

____+

 \times = bears

d. rows, bulbs in each row.

+ +

_____× ____ = ____ bulbs
