# Fact Families

Two addition facts and two subtraction facts form a <u>fact family</u> if they use the same three numbers.

For example, from 5, 3, and 2 we get the fact family on the right:

5

●● / ●●●

| $2 + 3 = 5$ | $5 - 3 = 2$ |
| $3 + 2 = 5$ | $5 - 2 = 3$ |

1. Write the fact families that match the pictures.

a. 6

● / ●●●●●

$1 + 5 = 6$

$5 + 1 = 6$

$6 - \underline{\quad} = \underline{\quad}$

$6 - \underline{\quad} = \underline{\quad}$

b. 8

●● / ●●●●●●

$\underline{\quad} + \underline{\quad} = \underline{\quad}$

$\underline{\quad} + \underline{\quad} = \underline{\quad}$

$\underline{\quad} - \underline{\quad} = \underline{\quad}$

$\underline{\quad} - \underline{\quad} = \underline{\quad}$

c. 9

●●● / ●●●●●●

$\underline{\quad} + \underline{\quad} = \underline{\quad}$

$\underline{\quad} + \underline{\quad} = \underline{\quad}$

$\underline{\quad} - \underline{\quad} = \underline{\quad}$

$\underline{\quad} - \underline{\quad} = \underline{\quad}$

d. 10

●●●●●●● / ●●●

$\underline{\quad} + \underline{\quad} = \underline{\quad}$

$\underline{\quad} + \underline{\quad} = \underline{\quad}$

$\underline{\quad} - \underline{\quad} = \underline{\quad}$

$\underline{\quad} - \underline{\quad} = \underline{\quad}$
