Solve each problem. Show your work!

It is Easter Sunday! Aunt Emma and Uncle Joe and their 5 children are at Kristy's house for dinner.

There were 12 cups in the house but 4 are broken. Kristy goes out and buys 10 cups. How many cups are there after she returns?

My Picture

$$12 - 4$$

$$+ 10$$

My Equation

$$12 - 4 = 8$$

$$8 + 10 = 18$$

My Answer

There are 18 cups
after she returns.
