

## Answers

1. The red toy car is the longest of the three cars.
2.  $15 - 9 = 6$   
The shortest toy car (blue) is 6 cm shorter than the longest toy car (red).
3.  $13 + 11 = 24$   
Altogether, the two toy cars are 24 cm long.
4. The blue toy car will fit in a 10 cm box.
5.  $12 - 9 = 3$   
The red toy car is 3 cm wider than the yellow toy car.
6.  $9 + 11 + 15 = 35$   
The 3 cars are 35 cm long altogether.
