

Mixed word problems

Grade 1 Word Problems Worksheet

Joe works at stationary store.

1. There are 5 kinds of pens and 8 kinds of pencils on display. Are there more types of pens or pencils?
2. There are two kinds of notebooks. The red one is 4 cm thick and the blue one is 2 cm thinner. How thick is the blue one?
3. The pencil crayons come in two different boxes. A larger box contains 12 pencils and a smaller box contains 6 pencils. If Ashely decides to buy one of each size of box, how many pencil crayons will she get?

4. A bookmark is 15 cents. Jenna has 6 nickels. What is the highest number of bookmarks she can get?
5. In an assorted pack of 16 envelopes, there are 10 white envelopes, 3 blue envelopes, and 3 grey envelopes. What is the fraction of envelopes that are grey?
6. The store opens at 8 in the morning. If it opens for 10 hours, when does the shop close?

Answers

1. There are more types of pencils.
2. $4 - 2 = 2$
The blue notebook is 2 cm thick.
3. $12 + 6 = 18$
She will get 18 pencil crayons.
4. $5 + 5 + 5 + 5 + 5 + 5 = 30$
Jen has 30 cents.
 $15 + 15 = 30$
2 bookmarks cost 30 cents.
Jen can get 2 bookmarks.
5. $\frac{3}{16}$ of the envelopes are grey.
6. 6 o'clock in the evening
