

Fraction word problems – Building Blocks

Grade 2 Fractions Worksheet

Two sisters, Francine and Sam, were playing with their colorful building blocks at their house.

<p>Francine stacked building blocks to form the shape of house. $\frac{3}{8}$ of the building blocks were blue. Put a check mark beside the house Francine built.</p>		
<p>Sam stacked building blocks. $\frac{4}{6}$ of the blocks were green and the rest were red. Francine then removed 1 green block. Put a check mark beside the stack Sam built.</p>		
<p>The building block pattern showed them which colors and the number of blocks to use. $\frac{2}{9}$ were red, $\frac{4}{9}$ were blue and the rest were yellow. Put a check</p>		

<p>mark beside the pattern they built.</p>		
<p>Sam's friend brought another block pattern. In that pattern, $\frac{5}{7}$ of the blocks were green, and the rest were yellow. Upon stacking the blocks, they noticed that they were short 1 green, so they replaced it with a yellow block. Put a check mark beside the correct pattern.</p>		
<p>Francine found some building blocks under her bed. $\frac{2}{5}$ were blue and the rest were red. Put a check mark beside the blocks she found.</p>		

Answer

<p>Francine stacked building blocks to form the shape of house. $\frac{3}{8}$ of the building blocks were blue. Put a check mark beside the house Francine built.</p>		
<p>Sam stacked building blocks. $\frac{4}{6}$ of the blocks were green and the rest were red. Francine then removed 1 green block. Put a check mark beside the stack Sam built.</p>		
<p>The building block pattern showed them which colors and the number of blocks to use. $\frac{2}{9}$ were red, $\frac{4}{9}$ were blue and the rest were yellow. Put a check mark beside the pattern they built.</p>		
<p>Sam's friend brought another block pattern. In that pattern, $\frac{5}{7}$ of the blocks were green, and the rest were yellow. Upon stacking the blocks, they noticed that they were short 1 green, so they replaced it with a yellow block. Put a check mark beside the correct pattern.</p>		
<p>Francine found some building blocks under her bed. $\frac{2}{5}$ were blue and the rest were red. Put a check mark beside the blocks she found.</p>
