

Mixed addition / subtraction (within 20)

Grade 2 Word Problems Worksheet

Ashley, Bob and Clara are playing a card game.

1. Each of them get 6 cards. How many cards do they have in total?
2. Bob passes 2 cards to Ashley and draws 5 cards for himself. How many cards does Bob have?
3. After Ashley receives 2 cards from Dave and then picks up 3 more cards. How many cards does Ashley now have?

4. Clara puts down a pair of cards from her hand and passes 3 cards to Bob. How many cards does Clara has?

5. Ashley has 3 more cards than Bob. If Bob has 6 cards, how many cards do they have together?

6. Write the number sentence that fits this: "If Clara has 11 cards and Ashley has 5 cards, Ashley has 6 less cards than Clara."

Answers

1. $6 + 6 + 6 = 18$
They have 18 cards in total.
2. $6 - 2 + 5 = 9$
Bob has 9 cards.
3. $6 + 2 + 3 = 11$
Ashley has 11 cards.
4. $6 - 2 - 3 = 1$
Clara has 1 card.
5. $6 + 6 + 3 = 15$
They have 15 cards together.
6. $11 - 5 = 6$
