

## Perimeters of irregular shapes (missing sides)

### Grade 3 Geometry Worksheet

Find the length of the side marked with an "X".

<p>If perimeter = 19 in., <math>x =</math> _____</p>	<p>If perimeter = 28 m, <math>x =</math> _____</p>
<p>If perimeter = 28 yd., <math>x =</math> _____</p>	<p>If perimeter = 27 yd., <math>x =</math> _____</p>
<p>If perimeter = 16 in., <math>x =</math> _____</p>	<p>If perimeter = 34 m, <math>x =</math> _____</p>
<p>If perimeter = 40 ft., <math>x =</math> _____</p>	<p>If perimeter = 45 cm, <math>x =</math> _____</p>
