

4. A fork weighs 5 grams and a spoon weighs 6 grams. What is the total weight of 5 forks and 10 spoons?

5. The TV stand can support up to 165 kg. The TV is 21 kg, and the DVD machine is 3 kg. How many more weight can the TV stand support?

Answers

1. $35 + 17 = 52$
He is carrying 52 pounds in total.
2. $38 - 12 = 16$
The weight of the paperback fiction book is 16 ounces.
3. $24 \div 3 = 8$
The weight of one cell phone is 8 ounces.
4. $5 \times 5 + 10 \times 6 = 85$
The total weight of 5 forks and 10 spoons is 85 grams.
5. $165 - 21 - 3 = 144$ kg
The TV stand can support 144 more kilograms.
