

Maps with coordinate grids

Grade 4 Geometry Worksheet

Study the coordinate grid and answer the questions.

MAP LEGEND	
	Elephant
	Lion
	Bird
	Giraffe
	Horse
	Monkey
	Crocodile
	Fishes
	Snake
	Panda

QUESTIONS:

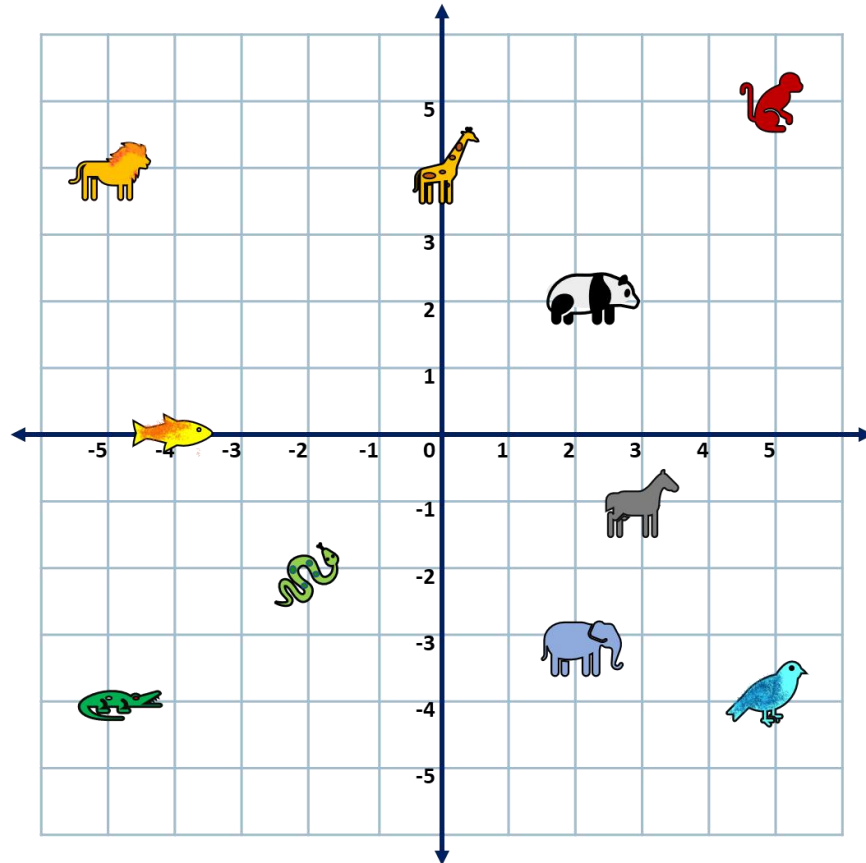

- Which coordinate point is the bird located at? _____
- What animal can be found at the point $(-5,4)$? _____
- What animal can be found at the point $(-5,-4)$? _____
- Which coordinate point is the giraffe located at? _____
- What animal can be found at the point $(2,2)$? _____
- Which coordinate point is the snake located at? _____
- Which coordinate point is the horse located at? _____
- Which coordinate point is the monkey located at? _____
- What animal can be found at the point $(2,-3)$? _____
- What animal is on x-axis? _____

Maps with coordinate grids

Grade 4 Geometry Worksheet

Study the coordinate grid and answer the questions.

MAP LEGEND	
	Elephant
	Lion
	Bird
	Giraffe
	Horse
	Monkey
	Crocodile
	Fishes
	Snake
	Panda

QUESTIONS:

- Which coordinate point is the bird located at? (5,-4)
- What animal can be found at the point (-5,4)? Lion
- What animal can be found at the point (-5,-4)? Crocodile
- Which coordinate point is the giraffe located at? (0,4)
- What animal can be found at the point (2,2)? Panda
- Which coordinate point is the snake located at? (-2,-2)
- Which coordinate point is the horse located at? (3,-1)
- Which coordinate point is the monkey located at? (5,5)
- What animal can be found at the point (2,-3)? Elephant
- What animal is on x-axis? Fish
