Grade 4 Word Problems Worksheet

Using the below item prices, solve the equations.

slippers = \$5.63	pair of shoelaces = \$2.72
pair of socks = \$2.31	shoe polish = \$4.12
cushion insole = \$1.87	shoe cover = \$2.81
leather shoes = \$92.80	rubber boots = \$5.76

1. _____ What is the total cost of a bottle of shoe polish and 2 pairs of socks?
2. _____ Barbara bought 3 pairs of shoelaces and 2 cushion insoles. What would her change be if she gave \$15 to the cashier?
3. _____ George has \$78.60 in his savings account. He wants to buy new leather shoes. How much more money does he need to save to have enough?
4. _____ If Stacey purchases slippers and 2 shoe covers, how much money will she have to pay?
5. _____ It was raining, and Steve needed to buy rubber boots and 2 pairs of slippers. How much money will it cost him?
6. _____ Jerry has \$26.85 in his pocket. He bought 3 shoe covers and 2 cushion insoles. How much money does Jerry have left?
