Grade 5 Word Problems Worksheets

Read and answer each question:

At a customer service center, a short call is defined as any call that is shorter than 5.5 minutes. The average call time on weekdays is 6.4 minutes. The average call time on weekends is 9.38 minutes.

1. What is the difference between the average call time on weekdays and weekends?

2. On a particular call the customer spoke to one representative for 2.4 minutes and then was transferred to a manager for another 2.9 minutes. Is this call a short call?

3. If a call received on a Sunday is 12.45 minutes longer than the average time, how long is that call?

4. On a Monday, each customer service representative received 8.7 calls per hour. What is the average time spent on calls per hour for each staff?

5. The time that is not spent on making calls is the break time for the representative. What is the break time in a 3-hour shift on this Monday?

6. Each customer service representative is paid $12.15 per hour. How much is each representative paid for each 6-hour shift?
Answers

1. $9.38 - 6.4 = 2.98$
   The difference between the average call time on weekdays and weekends is 2.98 minutes.

2. $2.4 + 2.9 = 5.3$
   $5.3 < 5.5$
   This call is a short call.

3. $12.45 + 9.38 = 21.83$
   The call is 21.83 minutes long.

4. $8.7 \times 6.4 = 55.68$
   The time spent on calls per hour for each representative is 55.68 minutes.

5. $(60 - 55.68) \times 3 = 12.96$
   The break time in the 3-hour shift was 12.96 minutes.

6. $12.15 \times 6 = 72.9$
   Each representative is paid $72.90 for each 6 hour-shift.
