

Prediction: Finish the story

Grade 2 Reading Worksheet

Read the beginning of the story.

When you **make a prediction**, you use clues to guess what will happen.

The Hidden Treasure

Maya learned to swim when she was two years old. Now she wants to swim all the time! Her favorite place to swim is in the ocean. She loves the ocean because there is always something to see.

Today, Maya went to the beach with her big brother and her mom. As soon as they got there, Maya put on her blue goggles. Then she ran into the water.

"Today, I'm going to find a treasure!" she told her brother, Liam. Then she dove under a wave.

The water was clear, and Maya could see everything underwater! Maya swam near some big rocks. She saw a big blue fish with funny eyes. Then she saw a school of tiny fish. There were too many to count! Next, she saw a starfish laying on the ocean floor.

Then Maya stopped. She saw something gold and shiny in the sand! It looked like a coin.

Maya's eyes got big. "I found a treasure!" she thought. She took a deep breath and dove down. She tried to grab it with her hand. The water was too deep, though, and a wave pushed her back up.

Maya put her head above the water and took off her goggles. Then she shouted, "Liam! I saw something shiny!"

Liam smiled from the shore. "What is it?"

Maya grinned. She fixed her goggles and took a big breath.

What do you think Maya will do next? Use clues from the story to write the ending.

[illegible]

Answer

Based on clues from the story, it is likely that Maya is going to dive down, pick up the coin and show her brother.
