

Bodies of water

Grade 2 Science Worksheet

Match each picture to its name.

river ●

stream ●

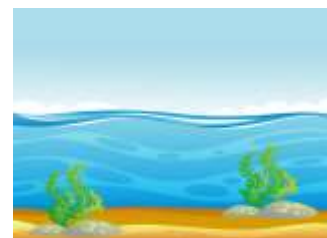

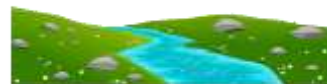

lake ●

puddle ●

pond ●

ocean ●

wetland ●

Answers

river

stream

lake

puddle

pond

ocean

wetland

The image shows a matching exercise. On the left, eight water-related terms are listed: river, stream, lake, puddle, pond, ocean, and wetland. On the right, there are eight corresponding illustrations. Colored lines connect each term to its correct illustration: a red line connects 'lake' to the lake with houses; a green line connects 'river' to the river in the forest; a yellow line connects 'stream' to the stream in the grassy field; a blue line connects 'puddle' to the puddle with rain; a purple line connects 'pond' to the pond with lily pads; a light blue line connects 'ocean' to the ocean with waves; a grey line connects 'wetland' to the wetland with reeds; and a dark blue line connects 'wetland' to the wetland with reeds.
