

## 5 paragraph essay: Astronomy

## Grade 5 Writing Worksheet

An introduction has already been written for a five-paragraph essay. Read the introduction, and then write the essay's three body paragraphs and conclusion. Try to include evidence to support the main points!

## **Introduction:**

Did you ever wish upon a shooting star? The universe is huge, with countless stars and galaxies. I believe more kids should be interested in astronomy. Astronomy expands a child's perspective of the universe. It also promotes curiosity. In addition, it introduces kids to the exciting world of space exploration.

Inree body paragraphs and conclusion:
